

Thanks to the Italian collaboration with Eutech Electronics now inn-Life could offer and shows the newest Eutech products integrated with our control systems.

Eutech Electronics, already supplier and partner for the leading American CRESTRON, has decided to expand its efforts on the Italian territory by selecting some excellent partners:  
the inn-Life team is proud to be one of them.

Soon there will be an event which will be shown in the presentation of the innovative control solutions proposed by the company.

inn-Life grows in the ideas and proposals in excellent collaborations!

We thank all the Staff and Management of Eutech Electronics.

Some products:

- [Homelight ALL GLASS - Multifunction switches](#)
  
- [Homelight DOOR LIGHT - Access control system](#)
